

3. OPERATING PROCEDURES

3.1. SCANNER ROOM ROLLER SHUTTER

3.1.1. General

- This is a manually operated shutter.
- Push the shutter up with the hand grips provided.
- Keep the shutter under control at all times.
- Do not allow it to crash up or down out of control.

3.1.2. Operating

- The shutter is fitted with a powerful spring, carefully balanced to assist operation.
- Grasp the hand hold handle provided and pull down or push up as required.
- Secure down using the security lock.
